

Agenda

- 1) Recap of the First Open House Power Point Presentation, Nov 20, 2013:
 - a) The request to study Liberty Street came from a number of sources – OTR Comprehensive Plan 2002, Bridging Broadway Public Engagement Process 2011, Brewery District Master Plan 2011, Casino Neighborhood Working Group 2012 project priority, Plan Cincinnati 2012, a 2013 OTR Community Council Community Priority Request
 - b) Design Process – the roadmap for the project design (see handout)
 - c) The Existing Surface Parking and Existing On Street Parking information
 - d) Existing Speed limits, Speed study.
 - e) Traffic counts – Total, at each block and turning movements; Accident data
 - f) Potential developable parcels. They can increase neighborhood job opportunities and visually reconnect OTR.
- 2) Main Street, Liberty Street to 12th Street Two way proposal - a separate project part of the funded OTR Main Street business association 2015 Neighborhood Business District Improvement Program request
- 3) 2013 Open House Comments to the City question “Are there any concerns with Liberty Street today ?”
- 4) Options – 8 total. Competing interests are vehicular capacity (the number of cars that the street presently handles), on-street parking, pedestrian safety, bicycles, development and urban design (will the final proposal allow the neighborhood to reduce the visual divide). Two options will be chosen.
- 5) Next steps –The next meeting will discuss the options again, any comments brought forward and decide upon two options in Jan 2015. The City will then study these two options further.

Please provide feedback here.
